TAREA 2

A school, whose name and address are known, requests an application to organize its teachers, students and subjects. The school teaches different subjects depending on the academic year. Each subject has several lessons that can be managed from the application. Exams are performed to evaluate each subject. The school wants to be able to specify the questions, the date and the weight of the exams in the subject through the application. Several classes are taught per subject, in a specific classroom, at a specific day and time. Each class has several students and is given by a single teacher. The school has the full name, address, telephone number and date of its teachers and students. In addition, every person belonging to the school has an identifier.

IMPORTANTE: Una vez finalizado el diagrama, un integrante del equipo tiene que exportarlo en formato **PNG**, en alta resolución, y enviarlo al correo **anevalab@gmail.com,** poniendo como asunto **GRUPOX**, siendo la X el número de vuestro equipo.
